Bush Must Go! Vision

In coordination with other national and local groups, we are part of a sustained campaign of political mobilization to defeat Bush in 2004 and to build a large, active, and enduring community movement devoted to peace, justice, social equality, and grassroots democratic participation.

Why Bush Must Go?

Many of us, regardless of political affiliation, are very disturbed at the direction the Bush Administration has been taking us since taking office in January 2001.

The following issues, in particular, concern us about the Bush Administration:

- A continuing attack on working people and labor standards
- Extraordinary tax relief given to the richest citizens and corporations
- A willingness to go to war and needlessly endanger the lives of Americans and those in the country we invade, in violation of international law
- Offering every possible kind of deregulation of business activity that is destructive to the environment and our pocketbooks
- Overlooking the criminal activity of the businessmen who support their agenda
- Disregarding how the immense cutting of taxes on the wealthy and the increase in the defense budget will create a much larger federal deficit

BUY A YARDSIGN \$6.00 (or whatever you can afford)

Bumper Sticker (4 X 24 inches) Inserted Onto Either Side of Sign/Onto Your Car

\$1.50 each (or whatever you can afford)
